

AZAAN INTERNATIONAL SCHOOL

Grade: III

Worksheet

Subject: English

Name: _____ Date: _____ Roll No: _____ Sec: _____

I. COMPREHENSION

Sun, Stars and Moon

In the sky, you can see the sun, stars, and the moon.

The sun is out during the day. It is very hot.

The sun gives us light and heat

Plants need the sun to grow. We can see the stars at night.

They give off light and heat, like the sun.

That is because the sun is a star, too! There are more stars than we can count.

Some people see shapes in the stars.

A group of stars that make a shape is called a constellation.

Have you ever seen the Big Dipper? That is a constellation!

The moon is out at night.

Sometimes we can still see it during the day! It does not give off light and heat.

Questions:

1. What is this story about?

Ans. _____

2. What does the sun give us?

Ans. _____

3. Are the stars and the sun the same?

Ans. _____

4. What is a group of stars called?

Ans. _____
