Unit – 5 A BATTLE IN THE JUNGLE

Unit- ROBIN HOOD AND JOHM LITTLE

I.   Comprehension:

Penguins

Penguins are a group of aquatic, flightless birds living mostly in Antarctica. Penguins have dark and white feathers .They have flippers for movement in water. Most penguins feed on fish, squid and other forms of sea life caught while swimming underwater. They spend half of their life on land and half in the oceans. Emperor penguins are the largest living species and the blue or fairy penguins are the smallest species. Most of the penguin species live in large colonies. Penguins are not afraid of human beings. This is probably because penguins have no land enemy in Antarctica. Instead, they are at risk in the sea from sharks or leopard seals. In 1986, Silvio Mazzola, created a famous penguin cartoon character named 'Pingu'.

Questions:
