ART-INTEGRATED PROJECTS FOR CLASSES IX AND X BY CBSE

Dear Parent,

Assalamualaikum,

Arts are an essential element of education. Just like reading, writing and arithmetic... painting and theatre are all keys that unlock profound human understanding and accomplishment.

Art-Integration is a cross curricular pedagogical approach that utilizes various aspects and forms of art and culture as the basis for experiencing the learning of concepts across subjects. As a part of the thrust on experiential learning, art-integrated education will be embedded in classroom transactions not only for creating joyful classrooms, but also for imbibing the Indian ethos through integration of Indian art and culture in the teaching and learning process at every level.

PROJECTS FOR CLASSES IX AND X:

Art – Integrated Project work has been introduced by CBSE to make teaching learning Competency-Based and joyful. One of the objectives of Art Integrated Education is to make the students aware of the vast and diverse cultural heritage of our country. Therefore, students from classes IX and X are required to take up integration with any form of Indian Art – Visual or Performing, as it will help the students to understand their culture better.

One Art- Integrated Project in each subject is to be taken up by all students of classes IX and X. This is to be assessed as subject enrichment activities for class IX and X and will be collected by the board at the time of uploading the marks of Internal Assessment.

It is hoped that Art integrated learning will promote reflection, critical thinking, creativity, initiation, self-direction and other 21st century skills.
