PCOR/2024-25/C0059

Dear Parent,

Assalamualaikum.

Sub: Introduction of Foundation Program in grades VIII

With the ever-increasing competition for admission to professional courses, pursuing the desired academic career has become a formidable challenge for the students and their parents.

To attain the ambitious career goals, it is necessary to build a strong academic foundation for our children right from an early stage. We also have to take cognizance of the fact that the methodology of competitive examinations like JEE/NEET/EAMCET etc. is quite different from that of the routine examinations of the Board.

To train the students for competitive exams, Foundation Courses are offered by reputed educational institutions. In view of the above considerations, Azaan International School has planned to have a tie-up with Extra Marks Education for the online Foundation program for grade VIII. The result-oriented faculty and pedagogy of this organization is well known.

As a pilot project, our school had run online sessions including MAT (Mental Ability Test) for the current VIII graders from Extra Marks. The sessions had started in 2nd week of July 2024 and the feedback was good.

The planned Foundation Program includes:

- Online interactive classes in Science (Physics, Chemistry, Biology) and Mathematics with Extra Marks Faculty and a moderator from the school. These classes will be conducted during the school hours for four days in a week. It will be covered in about 180 to 200 hours.
- Assignments Self-study Regular testing
- Mental Ability test – MAT Evaluation and feedback.

Such a course is expected to help the students acquire a strong foundation in Sciences and Mathematics so as to qualify in the competitive exams and get admitted to professional courses of their choice.

Fee: After negotiations, it has been agreed upon that an amount of Rs.13000/- (Rupees Thirteen thousand only) per annum will be charged per student for the complete course of Science (Physics, Chemistry, Biology) and Mathematics during the academic year 2024-25. The amount can be paid in two equal instalments.

Subject to the number of enrolments, the course is expected to commence in the first week of August. The last date for registration is 30/07/2024.

If you are interested to get your ward enrolled for the said course, you may fill up the attached consent form and hand it over to the class teacher.

Regards

HM
